## Experience

### July 2017 – Present

Full-stack web developer | [YEMENHUB, Ltd.](#) (an end-to-end IT service and solution provider) | Sana'a, Yemen.

- Development of YemenFlix's (large media service provider) **front-end** from scratch full project with (**Angular** > 2, RxJs, **PWA**, Video.js, Platform, **Sass**) added audio-player, video player, (movies, videos, series, songs) details view, etc.
- Development of YemenFlix's **back-end** with (**Express**, http-proxy-middleware, pm2) and integrate it with other services **APIs** for streaming data.
- Development of **SharePoint** OrgChart plugin with (**jQuery**, Ajax, orgchart.js), working with SharePoint's APIs, lists customization, upload files, localstorage caching.
- Collaborated on Bakalati (online grocery app) with (**Angular.js**, Ionic1, Cordova) fix some **bugs**.

### Other and open-source projects

Some of my personal projects find them at [Almo7aya \(Ali Almohaya\) · GitHub](#)

- **Anghamify** *April 2018* (an **illegal** music downloader with full metadata and lyrics built on top of [anghami.com](#)'s APIs) is a **full-stack** web app using (Express, Axios, **Redis**, Ffmpeg, Node-ID3, EJS, pm2, **PWA**, **Clusters**, **Preact**, **Redux**, Webpack), server setup and optimization using **Nginx**, **SSL**.  
**It's not open source and It will be down soon, respecting to Anghami.**
- **Selector-Game** *November 2017* matching base **game** built with pure JavaScript find it [here](#).
- **Ramadan-Stream** *April 2017* (tiny media streaming server with Ramadan theme) to stream (Video, audio, and files) using (Express, EJS).
- Ramanan and Eid hotspot login pages *May 2017*.
